welcome

there are lots of things we would rather do/not do, but the fun or the satisfaction that we receive from doing it/not doing it is vastly superior to the alternative.

if it doesn't bother you so much, why go thru the trouble?

it's a tough battle; many don't make it; some do, but it's gotta be worth it.

whatever you decide; it's your life....it should be with success.

welcome again
