welcome !

you have found the right place, great chevra,great eitzos, look around and you will find something what talks to you and then figure out what works for you. open up and share your experience and you will find that you are not alone and we can try to tell you what is helping us from our experiences. In addition many of us have found that honestly opening up/realizing and facing our issues is already a major step in getting out of our isolation/not facing real life/fantasies and into dealing with our addiction.

WELCOME! You are in the right place. We all have the same problem. Taphsic has it's plusses and minuses. It's not magic, and it doesn't work for everyone. It generally doesn't work by itself. It's "a" safeguard, but if nothing else is in place, like you said, you find ways around it.

Take a look at the handbook (see link in my signature). Share on the forum. There's lots of great advice and things to do. Sharing with people is probably the most important. So, KOS - Keep On Sharing! and KOT - Keep On Truckin!

AYBK!!

these things do happen and we need to learn from them as mentioned many times here there is something to learn from each fall, so try to figure out what caused the fall or led up to it,

you b"h have joined the site and have the tools so get working on them,

did you try opening up to anyone that usually is the biggest tool to get started,

kol tuv!!!

you should for sure not be too down or beat yourself up AIN SHUM YEAISH BEOLAM KLALL!!!

just brush it off and keep on trucking!!!

HELP if anyone hears me !!!

if 'tzaar rabim chatzi nechama' then it should be machazek you to know you are not the only one who found himself in such a situation, many of us have had such experiences, many of us even many times. If that doesn't help you, maybe it would help to know that many of us after having such experiences enough times have really started using the tools here and have found that they really work if you work them.

Yup, we've been there, done that.

What can you learn from it? What triggers did you notice? What can you do to prevent it in the future?

There is always a better life awaiting us, so don't get down, just take a step towards that life, one foot in front of the other, one day at a time!!

Like the others wrote, get up and focus on the moment before you.

You never mentioned what it was you were tryin' (besides tapshik) for the two years of tryin' to stop.
