

A Poll - Your Biggest Concern

Posted by cordnoy - 18 Dec 2014 09:44

Which of these bothers you the most?

Do any of those make your life unmanageable?

Can you live with any of them?

Are you addicted to any?

The Poll question, however, is simply: Which of these are you the 'most' worried about?

[It's also possible that the answer can change in time, based upon many factors.]

Thanks

I just tried to change my vote, it's not letting me.

anyone else seeing the same?

Seems all elections and votes nowadays are rigged.

Well if that's the case I'm gonna ask the Russians to spam Clinton and Trumps campaigns and divert everyone to the

CNC

Cordial national Convention

Now it works

Thanks!

I changed my vote to trigger happy on the computer.

I didn't realize originally how interesting the question is. Started me thinking about why that is what I worry about most when the argument could be made that I should be more worried about a different option.

Thanks for the bump.

My biggest concern right now is that I can't change my vote...

I tried, it won't let...

wow this is a tough one. I mean what comes first the chicken or the egg? Is it thoughts and fantasies and then your eyes wonder or the opposite? Isn't M caused by thoughts and fantasies? Are those "trigger happy fingers" a result of thoughts and fantasies or vice versa?

No I think each can be a separate struggle

Didnt you say your Masturbation was due to an itch, which i understood that it wasn't caused by fantasies...

Yeah But if I can't fantasize I can't masturbate. Its kind of cyclical. I am addicted to fanstesizing as a means of masturbating because I have an itch.

It starts with an itch and ends with a glitch.

I think that's the question of the poll

What is the underlying cause of the various forms of lust

For me 'trigger happy at computer' or 'Eyes Wanderin' in Street' cause me fantasizing and Mast...

Sometimes it's masturbatin that can cause the other things

However... .. there's very often an underlying cause to why you may itch

You say what came first the chicken or the egg

But do you realize that there can be something that came before the chicken

Markz,

Maybe for others something came first. But for me aside from the fact that I was raised in an environment where tznuis, TV & semiporn magazines were OK despite being "frum", I have no other triggers.

There is a famous story of a reba whom a chasid came to crying because his son eats chazir and dances with shiktzas. He told the reba my son became crazy. The reba replied no if he would dance with chazirim and eat shiktzas he would be crazy. But your son is just simply following the yetzer hara. In my case that's really all it is. I have a huge yetzer hara for zenus that succeeded in latching on to an addiction. In my cause, lust is simply the root with no trigger prior.

Disclaimer, I only speak for myself. It is possible that 99.9% of others on this site do not have that experience.

I still don't see how you masterbate without fantasizing but I guess I'll vote on that. Since in my case its not so much the fantasy that I enjoy (although I do enjoy it) rather its the climax.

I have masturbated without fantasy. I used to think it was impossible also.

I have masturbated without fantasy. I used to think it was impossible also. In not exactly doing that these days but I know it's possible.
