Shalom, I'm Shaul

I'm over 40 years age, mostly I grow up in a single parent home whit my mother.

I was seduce to be the play object in my childhood from older guys, I din't put too much attn to that

until pass my 20s that I began with serious pornographic stuff, and it went deeper and deeper and stop for a time and came back, just like that, its been a hard life for me trying to stop with no accomplish, I had go from bad to darkest, from regular woman to men porn and I can't keep this no more, I ask HaShem to help me, and a massage was delivered to me, "My Word Is Sufficient for the Foundation".

I have been looking how to be free from it, for too long, and today looking for some Torah study I found this program Guard Your Eyes, and I embrace this challenge for the great opportunity to change my life to the will of HaShem!

Please I will need your support in any way posible!

Shalom!

Welcome! I'm Shaul too, so we already have something in common...

Just introducing yourself on GYE is a good first step. I have found from my short time here that being part of this great chevra has already made a difference for me. Hatzlacha!

WELCOME! Have you ever seen anyone to help you deal with the trauma you suffered as a child? That is very important.

Hi there!

No, I have not seen no one for help in my past childhood, I wanted to do so but I guess never find the way to do it or the right person and courage.
