

Can Anyone Help?

Posted by zckyv88 - 11 Jan 2016 05:32

hi Ive had a problem since I was about 14 and it hasn't gotten better ive had spurts where I started slowing down but then started up again can anyone help

Welcome to GYE! You may want to read the GYE Handbook as it is full of lots of helpful ideas and insights. And reading and participating in the forum discussions can also be very helpful as it helps you come out of isolation which breeds a lot of negative things, helps gain perspectives and makes you realize you're not alone.

Chazak Ve'ematz!
