I have windows7 with Internet Explorer 10 + Google Chrome. I need a simple filter that does NOT allow one to delete history. Is there such a thing? If so, could someone please let know. This will definitely cut down my laptop viewing. Thank you. Re: Simple Filter that works... Posted by markz - 01 Apr 2016 10:53 Welcome

It sounds like you're looking for a reporting system like Webchaver I'd think
