Welcome and thanks for joining us!

I'm new too, just about two week old. What helped me to get involved was just to read the forums, ask any and all questions(really!), and to click on the links that guys have in their signatures.

Hang around and post as often as you can, tell us your story and how you got here, and just get involved. GYE will sweep you in and you'll be on your way.

Welcome! How did you find out about GYE?

I found that the best way to get started is by reading and posting on the forum.

I keep on failing and failing. I get back up but keep on falling back. I've become upset at myself because i know i can do better. I know it's wrong but each time i still fall prey. I'm at a lost as to

what the next step should be that will finally get me out of this hole i've dug for myself.

I don't know about you, but I know that I need today's call.

I'm gonna clear my schedule for that....no matter what.

! :20 call, and then Mincha.....both are necessities for today.

Hi Egghead,

I can only say that I understand too well what you are saying, and what is currently working for me is the Double-Fence TaPHSIC method.

It has changed my thought process regarding "falling", and has helped me maintain abstinence so far.

Hi Egg, (funny name you got there :-)

I see that you're still around although you haven't posted recently.

You wrote above that you want to stop. Often we try and try for years without much success, because although we are trying hard, we aren't trying smart. We need to have a plan on what we will do before we are tempted, what we do during, and what we do after. Have you read through (any of) the gye handbook yet? It has a lot of ideas and tips. What have you seen here so far that you have tried or would like to try?

Keep on posting. It helps to build relationships with people who can help.
