

My Story

Dear all that are here to help.

I'm turning to this organisation as I saw it advertised on YWNNews .

I'm a chasidisher yingerman 21 years old married almost 2 years. My wife is now awaiting our very first baby and she has no idea of my situation at all.

I don't know when my addiction started but I do know that from when I was very young I liked looking at non-appropriate pictures and catalogues. I remember as a young boy I used to sneak in to my moms bedroom to look at her woman clothing non-appropriate picture catalogues. thats how I kept on straggling all my Yisheva years, I tried stopping many time but never managed.

I got married at 19 and half years old, then I thought that my addiction will finally stop, little did I know that it only becomes worse by the day.

I have tried and tried hundreds of times to stop but I always after few days/weeks I full back to my addiction. I haven't looked at non-appropriate stuff for the last month or more but I'm scared I'll full back shortly, that's why I'm turning to you GYE to see if you can help me.

Thanks

Kind regards

=====
