

Moudmack: My way back to kedusha(Y)

Posted by Moudmack - 19 Oct 2016 04:06

Hello Im a 24 year old single male who has done teshouva a little over two years ago, I was going out with a non jew for over two years and grew up secular and being exposed to sexuality on a constant basis. Since i did teshouva i have never masturabted again so im now two years clean in that aspect. I have fallen several times by seeing none permitted videos and images but i always manage to overcome my inclination to touche my brith. I have felt very down for not achieving the kedusha i aspire to achieve but i am confident that with the renewed effort being put i will be able to get stronger and keep myself fully clean.
