Maybe contact SA? You can go on their website. They might have Spanish speaking meetings also and you could check those out.

Hi cordnoy. BH I have now a sponsor.

I'm still a live.

My marrieger it's almost on the garbage.

My life is in the ruins too.

But, maybe, for me it's the best.

And for her.

My egocentrism don't let me to be good whit others. Specially with my wife (or ex?) and my children.

Cordnoy, I think, I try to understand very slowly the 12 steps.

Thats it.

Thanks.

That's a sad post.

Don't you want to be free, Willy?

Can you not salvage your marriage? Perhaps if you pursue the freedom you desire. It'll all fall in place.

Many women know Spanish but speak "a different language"

By the laws of mother nature it's natural for a marriage to dissipate

When you can find yourself a different mother, your addiction and marriage can get under control

Does it sound like I'm talking Chinese?
