For many years I prayed And creied to God in the fryday night Tefila Raza Deshabbos that he should wankish the klipa and the sitra achra and allow us to shomer the brit the propper way wich is so hard today

since i was a bochur i fought with myself and the outside to try and shomer the brit

till going to my Rebbe he told me that is better to let aut than chos vechallila do worse averot with ashes ish or even pnuiot

the yetzer was so strong at that stage that for fear of being over with ashes ish i gave in

till yesterday that I felt now at the age of 55 divorced for the 3rd time the time has come to take up seriously the chalange and concor it

i am worried how lwill feel after acting out moust of my life and now to stop!

May God Help me!!

Any tips and suggestions?

like when is the worst time?

what should I do than?

will medications help me or make it worse?

is there any free or nearly free therapist that will get me over the hump?

if not what will it cost me for somebody good and professional?

What I learned from 3 marriages that when you want to marry your second wife don't bother jump straight to the third one because the second is always worse than the first!!!!

jokes appart

NOT ALL MEN OR WEMAN ARE MATERIAL FOR MARRIAGE

AND IT IS NOT RIGHT TO BRING CHILDREN IN THIS WORLD AND THEN TO DUMP THEM!!!!

I agree with the GYE handbook that marriage Doese not help sex Adiction it complicates it

counseling for us was just a plaster

it did not take care of the root problem

that is that a person has to be emotionaly healthy and a Mench before he marries

better each one work on their own problems with a good therapist and the the 2 therapists should work aut together to solve the issues that come up

unfortunatly today with the inflated gashmiut and limited time of parents to devote to the kids

most men are not real men and moust weman and men have all sorts of childhood scares that way heavy on the delicate structure of the marriage!!

may God have pitti on us

as far as I am concerned for moust people marriage is only a painfull trip that ends bad for all parties including the poor kids

Said that I still think that having children as also prescribed by the Tora is a very important aspect of life which cannot be ignored!!

and marriage is the only healthy and correct way to have them

In other words it is a catch 22

May God bring Moshiach soon and absolve is from this terrible dilemma!!

AMEN
