Remember how bad you feel after you act out.

Do something constructive instead which will make you feel good.

Go for a walk.

Read a book.

Call a friend and see if they need company.

Study.

Hi,

Don't know if this will help but I'm a 34 year old bachur and NEVER had sex so just thank G-D that at least you're getting it most of the time!

In short, there are guys out there a heck of a lot more sexually frustrated than you.

I've been at home a lot with the flu. Always have things to do but get distracted and frustrated.
