_____

Hello everyone,

I just joined and I need help. I'm 27/married and get sucked in about 2-3 times a week to
            I've tried filters on my phone, the issue is I'm a web developer and I've found a
loophole that no filter works for:/ (this is in iPhone) even if I completely lockdown my internet to
a whitelist, I still can get shmutz if I want it. I'm trying to quit, but it's so difficult, especially
without a good filter.

Any chizuk and help is appreciated!
