ive always fantasized all this stuff starting from a young age. when i got older i finally discovered the whole story and evry thing i suppose to do to ma*****e. and from there on it never stopd. even i tryd very hardly. i spoke to my rabbis, they couldnt help me too much, once i when i was a big bochur, while having a conversation with my rebi on this, he started: oh thats very not good very not good; i right away escaped the beis medrish all teary, this was my last convo with him on this, no blames, its part of the story.

part of my problem was, i had then very a good name, witch i think it is still remaining, i was a high achiever, i got very depressed from all this.

then i married my tzedeikas, thinking\hoping things will get better, but it it turnd out to be the total opposite, now im blessed with an precious child, still didnt move any foward.

it is a similar story to many others

my lack of communicating and creating friendships saved my life.

i started seeking out for help, i sat in the chair of tow people who are specializing in these matter, and b"h i made little progress, with some different techniques that i got.

thanks to hashem i love learning mussar and chasidis, while the years went threw, i was able to gain a lots of chisidis and hashkofa in these subject, like in many others, but the light at the and of the tunnel i never saw with my eyes till these days, that i that i got connected to this holy chabura kedoisha.

and a special thanks to all the wonderful people here so welcoming me so nicely. and giving so much chizik and strength.

im full of hope to share with you my good news soon!!!

Welcome!

One of the great benefits of being part of this community is that you come to realize that you are NOT alone...

We are living in extremely hard times and many people are suffering like you. At the same time many have also recovered and so will you with Hashem's help.

as i find this place a good place to store my unwanted files, atleast to have them organized.

i spent a nice amount of years sitting in *kolel* over *shilchun urich*, i gaind nice knowledge in several *miktzoies*, i got quite popular between the *lomdim*. and many times i got surrounded with others asking me their questions, *pshat* and *halacha*, and just to clarify, i wasn't the greatest brain there at all, there was greater then me their, but i did well in my learning, i got a good sence of explaining to them, was days that i found my self with a line of few *yingekeleit* wanting me to explain to them a a *shach* or a chavas daas.

for me - in my heart - this was a real 'disgrace', knowing my major failures, thinking to my self how can i do this, sit her between them, *baal mesiris nefesh*, while im ongoing with the forbidden. i wanted to escape this beautiful place immediately i didnt found the right place were to, and not the right moment, one day i felt so disgusting knowing that this isn't my place were i belong.

B"H i had in my hands an activity that i can do for *parnusah* until i settle in, i just did what i 'felt' i need to do, right or wrong.

any one in this situation, i urge you not to do what i did, do not take advice from this, unless you are advised to do so, this is just another part of my story.

now im trying to fill the gap with this holly kolel.
