

how to access GYE during zman

Posted by tzaddikvikam - 25 Aug 2024 09:24

Hi, I'm a yeshiva bochur that sort of found GYE, and realized that this what i was looking for for a long time, and is exactly the chizuk/help I need. I'm just getting started over here, but I'm starting the zman soon, and wont have any access. I'm starting a new yeshiva, so talking to the hanhala / rebbeim isn't an option. I know there's a hotline, but I don't think thats going to work for me. Any eitzos?

I'm torn between wanting to rip you apart because you're annoying, and having rachmanus beacause I feel bad for you.

I'd like to apoligize.

Looks like I mixed up hopefulposek and hopefulswan.

I'm looking to create a filter for a flip phone that will allow the GYE app, either from scratch or by getting a filter company to allow it.

I'm mainly making this for yeshiva bochurim who don't have access to GYE in yeshiva.

If your interested in helping, either by helping to write up a nusach to send to filtering companies, or if have you have experience with rooting and/or editing android roms, please reach out to me.

Sounds cool.

Have you reached out to existing kosher flip phone companies to see if they have a way to add it in?

How many bochurim (or parents) are going to specifically purchase a GYE friendly but otherwise extremely limited device. Basically announcing your intentions. Might be something that you'd have to 'sell' to yeshivas and they could lend them out as-needed.

Kosher flip phones don't do much. If GYE is on there, some bored bochurim might use it in a negative way (people already do, but there could be many more).

I understand your specific need for this, but as a marketable item, you'd need to find the appropriate distribution and clientele.

Hatzlacha

Looks like I wasn't clear enough.

I want to build my own filter for one of the standard, popular, flip phone models out there, and have an option to allow the GYE app.

I would also make some sort of system where people would have to get approved to have the GYE app allowed. Maybe involve GYE higher-ups, maybe involve some of the senior oilam on this forum, maybe something else.

You want to build a filter from scratch or work with an existing filter to accommodate the GYE

My Yoman app?

Might be worth a few emails to the filter companies for ideas and options.

Anyone around here wants to write up a nusach to send to a filtering company?

You want to build a filter from scratch or work with an existing filter to accommodate the GYE My Yoman app?

I don't think it's b'etzem so hard to filter a phone.

Many bochurim know how to take the browser off of phones, but to make a secure filter you have to mess around with the parts of the system that can be used to bypass that.

Anyone interested in helping?

Might be worth a few emails to the filter companies for ideas and options.

Is there anyone around here that can write up a nusach to send to filtering companies?
