

How I got there

Back in 1969 when I was turning 19 I had a girl friend that was extremely inviting .

My parents and older brother manipulated me out of the relationship.

Then I became "tag along " to my brother in a high middah Avodah Zorah group . This almost stopped me from graduating college .

After having a beautiful relationship destroyed by an atheistic therapist ; fortunately my last lady friend got me to be a Baal Teshuva .

Unfortunately , porn is not just pictures . It can also be propaganda that can cause beautiful relationships to disintegrate .

Also , mistreatment of disabled and those who are achonronrei mishpachah of their immediate families can lead to many new difficulties.
