

Never Give Up

Posted by shalom1530 - 04 Apr 2025 05:30

Life has been really great the past 13 days I just found out of this site I signed myself up and I really felt that this time I'm going to make it through, and for 13 days I felt sky high.

Until now when I got a painful reminder that the struggle is a tough one,

I have fallen through twice, and feel terrible about it, but being on the right path doesn't guarantee you that you will not fall, but it does guarantee that eventually you'll get home it might take some time it might take some pain but as long as you're on the right path you will make it through,

As I'm writing these lines, I feel now more determined than ever to keep standing back up, and to not give up.

And ??? this time will be the time that I will make it back home without falling ever again

thanks for the chizzuk it came just in the right moment, as I had to be today somewhere where the urges to look were pretty strong I really didn't want to go but I was very important and I was very stressed that I wouldn't make it out of there without looking at and think about inappropriate things and your chizzuk really helped me pass day the with almost no bad thoughts, I have been to that place quite a few times never was it so easy not to look and think about stuff as it was today

THANKS!!!!

I had a setback today I feel terrible it happened so quickly I still can't believe it happened.

The only thing that makes me want to start again, is that it didn't involve watching "P" which makes it a drop better, as for that I'm still on track regarding stopping to watch P.

Hope this week would be a stronger

(I'm crying)
