shalom! Ive been struggling for about 11 years, I discovered P when I was about 9. Over the last 3 years I've been trying very hard to overcome P and M. I very rarely fall for hardcore P, I do fall for softcore P more than I'd like. I have enough blockers in place to live a semi-modern life. I'm looking for someone experienced to talk to who struggled with P and softcore P for a longtime and has gotten over it! A mentor who still lives a semi-modern life and is able to watch a movie every once in a while. Please keep in touch. There's nothing I want more that to get close to ????" and receive his blessing, and PandM is what is stopping me from my goals. Kol tuv, chag sameach!
