

AAA - Alone And Addicted

Triple "A"

Yes, that's what I am now

It used to be.(not too long ago) that when I was alone, id look for my skype partner. If she wasn't available, id try a replacement. If that didn't work, id search for good videos.

Now..... I'm alone and addicted to.....Guard your eyes!

I can't get enough.

What new post is there? Did someone write a new vort that will help me and others? Did someone fall (c"v), who started fresh? How can I improve my marriage? What can I do for my wife and family? What good advice can I glean (or by mistake, even give)? How come 90 days isn't getting closer? Are there shortcuts? Focus on now! Stay away from that dangerous "reset" button.

There is so much here to gain.

Who needs porn? Who needs tayvos? What will the shmutz get me?

[I'm not cured fellows, but you guys have me on the right track!]

Yasherkoach gadol, and keep it up!

Thanks so much!

Diddo!!

and just to clarify

[skeptical wrote:](#)

(And you're not alone!)

meaning we're all addicted to GYE!!

(anyone know of a GYEA group?)

I agree, you are definitely NOT alone! We're all in this together

---

Not quite what I meant.

I meant that we're all here for each other and the support is incredible!

But there are enough of us here that are.

So to clarify again

---

You are not alone in our addiction to lust. We're all in this together!!! (and there is an entirely seperate website in Hebrew also full of members)

**AND** you are not alone in your addiction to GYE!!

Accessing the site on my mobile device is not the easiest experience

There is a lot of jumping around

Its ok though

It serves a grand purpose and good things don't come easy.

Yeh,

being addicted to GYE is one of the best things that happened to me, before I was addicted to GYE I was addicted to another Blog that I checked out loads, and it did me no good.

Thanks to all

True. The hardest part of using it on the phone for me is typing responses, the text box is impossible to use online. As a workaround I use another application on my phone to type (usually email) and than cut and paste the finished product into the text box on the site.

Hope this helps.

Keep up the good work, but just to point out the obvious, Addiction is not to a particular thing. It is just that we have an addictive personality so we get easily addicted to things. Lust is my/our drug of choice, but I know that if I let myself I would be addicted to far worse life destroying things (lust has destroyed my life already, but at least my body is intact).
