Yes they did but I don't have money at the moment to pay I have no money if I have no money I can't pay for a filter and can't get one.

I get Internet from different places each week and I need it because I would be bored out of my mind every single day if I did not have it.and I am not married and don't have a wife. I know this might sound wierd but I know I look at p and maybe what's bothering me is I don't know yet or no one has ever explained to me how a baby is born can someone please explain that to me

thank you.

all babies are born when the actors and actresses stop acting. They are never born durin' the movie. Perhaps watch General hospital.

you watch porn, but no movies!?

hmmm

what kind of porn?

babies are made at the gas station.

pull up at the pump, swipe your credit card, choose what type of gas or air you would like.....put everythin' back, and walla! 40 miles later, you'll be lookin' for the pacifier in the back seat!

Hello Shmulke,

These folks are nice fellows, so I don't think any harm was meant. However, I apologize for any offense that was taken.

I took down your question and all the responses to it. I believe you that your question was ).

~~sincere, but I don't think this is the forum to have it answered (no pun intended~~

Hi,

you know what I want. A nice filter and then what? I want to get around it, see if it really works?

Junky mind, sorry. This is : I am helpless.

And I can't do anything. This is helpless, powerless. Nothing, no filter, no strong fences, nothing, nothing will work. Addicts find away.

Unless, you want sobriety, you want and don't know how. Then there is hope.

I believe there is hope.

All the best to you.

It helps to write about yourself and your addiction, if it really is an addiction. Honestly I am really in a bad situatuion right, I want to act out, watch porn, and typed shmutz in the browser Youtube, but didn't watch porn. Yet. I mean nothing explicit, really. But it is slipping.

So this is me, Miha, the real me. No lies, no false name, nothing, just me.

I keep a journal and write in it every day. I am reading notes from last year. I can't believe it has been going on so long with this diary. And it helps.

So, admit everything to yourself, write it down. If it is painful, scary, hard, then it is even more important, that you write it down.

Let go and let God. What ever that means .... :-)
