

Slogans and Sayings

There is an idea that I read from Rabbi Noach Weinberg ZATZA"L to keep saying slogans to yourself, it's a short message that is easy to remember.

Of course this is already an old idea, there are tzadikim of the past who have made a bunch of slogans.

Also, a slogan is just a short message of a long thing you have already learnt, if it is just a nice message with no meaning to the one that is saying it, then it will just fly away from the mind like a fleeting shadow.

So if anyone has any good slogans and saying, do us a favor and post them here, these things are extremely useful.

Let us begin with one that is tzigepahst for GYE:

"No situation can be bad enough that a little lusting won't make it even worse". - Page 14 of the GYE handbook, bsheim SA

This is true of the negative, and I M glad it is true of the positive too.

It sure seems like that we need a lot of changing, and yet in the world of matter One gave us,  
He also wanted us to keep and make abundance the things that matter, so He gave us  
dominion so we could be in His image, so may I never again only live in an imaginary world of  
matter.
