

Need serious help with Covenant Eyes

Posted by Ploni - 15 Mar 2016 08:37

I have been using Covenant Eyes for many years and it has helped me stay away from bad places. I have had it installed on both personal and work computers without problems.

With my new employer, I am having DNS problems. To configure my antivirus software, including for automatic updates, the IT technician selects "Obtain DNS server address automatically." Unfortunately, Covenant Eyes changes it, almost immediately, to 127.0.0.2, notifying it did so in a popup window. Therefore he cannot configure the software properly, and my PC is unprotected from viruses, malware, etc.

Has anyone else experienced this problem? Does anyone know how to stop CE from changing the DNS server?

This is a serious issue, because if the problem is not solved my employer may force me to remove Covenant Eyes from my system, leaving me unprotected. Thanks for your help.

Have you tried the obvious: contacting Covenant Eyes's tech-support?

Ploni, I am wondering if you uninstall Covenant Eyes, let the IT technician do his thing, and then reinstall Covenant Eyes, will it work then?

best way to stay away is just this simple - Stay away from Goyim - Do not go anywhere women are - If you are in a store these women see you dont look at them and will do anything to get your attention - Don't look at them - Their dress is immodest and is because they have NOTHING inside worth having in a mate - That is why they are selling their looks at you - They are empty. Tell your self they are low self esteem. When they force their way into your space, Ignore them - it drives them crazy but don't look - this only confirms they are SO empty they need every man and womans attention - DONT give it to them. Women need a man's life force - if you dont give them this, they burn out and leave. Realize if they dress this way to get your attention, imagine yourself married to her still dressing this way - would you want her still needing others to notice her - She might be beautiful yet this shows you are looking at a woman who can only survive if others give her what she needs - SEE WEAKNESS in her.

second get focused on something else - if you say the Shema twice a day, and Shemoneh Esrei 3 times a day, Learn Daily Torah Portion, the Daf Yomi Page instead of watch TV, or Youtube, and also read books about Torah or watch ONLY Rabbis Lectures instead of movies, tvs, etc you will not have time for those other things.

They say dont Isolate - yet Isolation works if you are in a Goy neighborhood like me - yet if you have Jewish centers for learning, classes, etc then show up. But reject any guy friend who even looks at ophther women - birds of same feather flock together and sooner or later the woman hunter will shoot both of you ducks down from the sky. You dont need friends like them.

Reduce all Facebook friends especially women who are not modest or even ask for a hot pic or

wants to show you hers. Delte any woman who does this - with not a care if it hurts her feelings
- Stand up for yourself.

Realize women doing this are or could be possessed with a Dybuk. Do you really want that in
your life?

After doing this for awhile it will start to sickness you at how awful and evil women can be - the
rose colored glasses come off and all you see is LOW SELF ESTEEM MONEY SEEKING
HARLOTS who can not have anything worthy to add to your life. the sooner you realize these
leeches are suckers of the SOUL the better. and next timje you see a half naked girl you will
see something that is Subhuman

NEVER EVER FALL for the TRICK - but I dont know how can you help me - as they tear up -
This is a TRAP - women learn to seem helpless so you will feel important and when you help
them, they will come on with the flirts - it is all a trap - They could care less about you, they are
playing you - the SOONER your realize this about women, the faster you will be cured from
these EVIL SUCCUBUS. And you will not look anymore.

Welcome

I'm a little intrigued by the choice of your name '*Afterdeath*'

Is that how you feel currently?

I can definitely try give you my input if you like
