

I AM A NON ADDICT

**Warning: Spoiler!**

Click on the spoiler for interesting info

I have a reputation to say things how they are, and I don't intend ruining that

The truth will stand forever

We don't need 2 sections for addicts and non addicts, and if there would be, I'd reside on the addict section although I'm a non addict

We need 2 sections

- 1) Guys that want to break free on GYE terms
- 2) Guys that want to do so on their own terms and conditions

I can identify the few members that wish to reside on section 2, and I wish them well.

Cut it out this non addict business

If I would act out every 2 months and could not physically stop, I'd consider myself an addict

Is gye gonna have an addict test before being accepted to each forum?

I assure you not. Then who are we kidding?

Ourselves

When will we grow up?

Never

I think he saw this addict non- addict conversation and said "Boy, these guys still need me more than I thought!"

I know that SA helps. Zeh freaking hu.

Shlomo, I think here is some people's problem.

All you really know is that SA helps **you**.

Personally I think there's a very important distinction between addicts and non-addicts. It's about honesty and facing reality. Nobody should try to force a square peg into a round hole (or a

round peg in a square hole for that matter).

So non-addicts don't need to be honest?

Fake news! Very dishonest coverage.

Sing, I mean that everybody needs to be honest about the reality of their own situation.

Did a bit of googling and i think this short essay sums it up very nicely and in a well rounded fashion.

In summary to this thread you can be addicted without being an 'addict'

Most people who come here are having difficulty stopping.

That makes them 'addicted'. It doesn't necessarily make them 'addicts' though.

So maybe we should redefine - Addicted Addicts and Addicted Non-Addicts.

Once we are dividing GYE, we should do it more! I like cholent and Cordnoy likes kugel. Watson likes herring and Singularity likes kichel. Mark likes candy and Gevura likes schnapps...

Ultimately, GYE is focused on what brings us together, not what separates us.

I'll always be with you, especially because I hate/despise the black ones. As a matter of fact, I'm not really fond of any.
