

Safe Searches on Internet

Posted by heemircha - 08 Jan 2018 20:53

---

I have pretty much all known search engines blocked by my filter, the one I use is [k9safesearch.com/](http://k9safesearch.com/)

Recently it is not showing up.

I need to have some search capability for work.

If it is actually gone, what is the next best option?

Thanks
