

Looking for Yeshivish guys who started getting into Breslov

I was a BT Yeshivah guy for about 10 years. Then a (litvak) Rabbi sent me to Breslov thought to deal with prishus issues (my wife is limited in the area of giving to me in this area- no fault of hers- sexual abuse, etc). I found the world of Breslov learning to be amazing, and the avodah too. I was wondering if there are others with a more lithuanian learning background who have come to Breslov.

You don't really find Breslov, it finds you.
