

Doing business with women...what to do?

Posted by redfire - 29 Dec 2014 03:59

Ok I'm going back to work tomorrow, my issue is I do business with ALOT of women due to the business that I'm in. Almost everyday I come across a women I find attractive. Now I feel that it's proper to look at someone in the face when speaking to them. Being the case I sometimes find my mind wandering about the female I am talking to. Please!!! Some advice of things that work for you when you are in a similar situation. I would really love to talk to them and not have my mind go "there". Thanks.

ya

but I'm looking for his first Name

It's like when we were small and we called a friend on the phone, then the mother picks up and we forget the first name of our friend, so we just wait or we hang up.

stuff. It doesn't interest me much; as long as they keep doin' it, i'm fine.

though we are not allowed to lie, we dont have to say the whole truth

Sorry, but I didn't understand what I said wrong?

I believe that understanding a bit the way women act and dress, can help us men to control our eyes .

You didn't say anythin' wrong.

It happens to be that I disagree; knowin' why they do what they do doesn't change my responsibility a bit.

There are those who may say that you are attemptin' to shift the blame away from us; I am not so smart, but it might be somethin' you should consider analyzin'.

I'll try to explain myself,

Women in general can trigger us, but if they are dressed immodest they trigger even more.

It's their beauty or way of dressing that is playing with our triggers.

So if you can teach yourself that a old fat lady and a young nice sexy women are both daughters of Hashem, they both have life and family, they (the young) dress like this not because they are looking to get our attention, this is just the way they would get dressed even if they were going to a Women only gathering.

They will get very mad and upset if they would feel or know that we are lusting after our customers.

Makes sense?

Its true women get DISGUSTED when they realize a man is lusting after them. Although my wife admits that women do feel good and even desire to get noticed because of their beauty be it from their husband other men or even other women.

I would like to add that actually every person wants to feel Noticed,

kids, grownups, men and also women.

We should even give them (the women) the feeling that they were noticed,I mean when you are handling with them.

We have to be a Mench.
