Fill us in, give us some context.

How long are you on GYE? What have you tried in the past that worked, and what didn't work. Why did some things work, and others not?

Hatzlocho!

Read the handbook. Start posting. Reach out for help before it is an emergency. Try and stay involved in positive things.

Try this small step it may help you.

For the next 10 days come on here every day and post where you're upto, whether you're uphill or about to fall, and your friends will be here for you

?? ??? ????

Stay busy and distracted. Once you win a few battles you may be able to slow the pace of the war down and strategize. Keep pushing and keep us posted.
