If you'll be by the Agudah convention - especially by the session called "Tangled in the Web",
please print out flyers and leave them there!

Guard please don't be so bold to think

There is an internet

It is a figment of the imagination

Please guard don't rock the boat with more problems

Its not an issue

Just leave it

We don't know how do deal with it even if it does exist

Just forget the whole issue

Sorry to get you excited there, Guard.

It's not a GYE ad.

It's for a service similar to internet Rimon (Publicity for this IS still a madreiga).

No, but I'm hoping that the Moetzes will officially announce the issur of using the Internet without an effective filter, and also recommending monitoring software. My sources say that it's already been signed.
