The post by cordnoy that expresses his journey and appreciation was a moving one I am sure to us all. He has had a profound influence on so many (certainly me) through his example, wisdom and wit.

Markz idea of donating to GYE is surely a wise and befitting way to honor our dear friend and mentor.

I would like to suggest an additional way. One that costs no money. It takes only a few seconds and will definitely only boomerang back to us in a most positive way,

PLEASE say " May Hashem grant the man who is named cordnoy on the forum at GYE bracha and hatzlocho in all matters"

Once this is said -loud enough that it is audible to your own ears - Then, please indicate that you did this by either a thank you or posting your own remark.

Thank you all for participating. May all of us be so blessed.

I was in shul today and I prayed for Cord, Mark, Sing, Serenity, etc..., I guess I was a louder than usual. Guy next to me gave me that weird look. After davening, he asked me if my family members got such weird names. I replied, No, they are my fellow truckers. We got to pray to

make sure there are no accidents along the way, or else the entire company suffers.

My gosh... Did this happen the same time as when that pretty woman was walking to me but then a truck hit her and she flew out of the field of my vision?? BH!
