

Compelling Reasons For Splitting the Website

Posted by Markz - 16 May 2017 21:09

I'm all ears

Anyone?

I'm all ears

Anyone?

Here might be couple of compelling reasons, take it or leave it:

1. For non addicts some material on this site may actually detrimental, to go in detail about how human nature of this addiction can be disturbing and detrimental to them. All they need is a nice piece of Ohr Hachaim on the parsha about kedusha and about dopamine, etc... There is a reason why inderheim in Europe no one discussed this issues. Let's face it, someone who comes to this site will sooner or later read about something he shouldn't.

2. Since the split site will have different name (like shmiraseinayim.kot) then someone who just wants to learn about shmiras einayim will not need to be ashamed to go that website. He will be able to tell his wife, Rabbi, friend, mother-in-law about it without fear of their suspicion unlike GuardYourEyes.

You make sense!

Its already there...

On your computer please look at top right of the page where it says "go to prevention site"...

Oh, I forgot about that.

In other words, this site is already split and this discussion is if it should get split more, correct?

Welcome!

Try the TaPHSiC method, it works wonders for people in your situation:

guardyoureyes.com/tools/taphsic-method

If that still doesn't work, you may need the 12-Steps and group support.

Hatzlacha!

[strike-]I swear[/strike] the "Non Addict" website will be promoting Taphsic for breakfast lunch & supper

In other news;

[Yesterday Chizuk email wrote:](#)

TAPHSIC WORKS!

By GYE Member

Shalom Aleichem Ya'akov,

MANY THANKS – I did my 1st Shvua after we emailed last month, and not one slip BH.

It expired today and I just renewed.

I had restricted my iPhone (long ago – friend set up code) but temporarily he gave me back the code as this was only way I could renew whatsapp, and due to a technical issue it took some time and I had open internet. Actually because of the Shvau – which I WISH would have known about properly and done ages ago. I'm actually comfortable and not falling. What a difference from the past!

BH joined a morning learning session recently for 1st time in my life (just thought you may like to hear this point).

I humbly believe, if a person has a good level of emunah / Yiras Shamayim, the TaPHSiC Shvua is THE BEST MEDICINE! How can we promote it more??

Thanks for all.

Does this email make sense to you????

The implication is that he passed a

Milestone in his recovery and is cured

Taphsic works - yeah!

Would anyone write "SA WORKS" after 30 days? Yeah it's highly beneficial, but misleading imho, if it's not tried and tested by the general population

Gye has stats. I'd love to see them

1a) How low would the non addict fall, and how frequent?

1b) What tools worked for him long term?

2) How many have long term Taphsic?
