

Fortify Program

Posted by itstaken1 - 18 Sep 2017 14:06

- Can whoever used the fortify program describe the program and give reviews.
- Does anyone know if it will work on the netfree filter?
- What does it help for (porn, masturbation, etc.)

They don't provide a lot of info on their site, and I want to know about it before I spend money on it.

Thanks

I've tried it. Basically if you're the type that gets hyped by hype, it's for you, otherwise I felt it was a waste. I tried because I had nothing to lose and I don't regret it.
