

CHIZUK EMAIL PETITION

Posted by lionking - 23 Jul 2018 13:13

Editor's Note

NEW CHIZUK EMAIL SCHEDULE

Dear GYE Family!

I hope you've been enjoying the Chizuk emails. It is our pleasure to send them out to inspire and empower you. All of us at GYE administration thank you for your support, readership, and participation in our network.

Please note, that going forward we are scaling down on the frequency of the Chizuk emails. This move is in response to the changing conditions on the ground. Our readership is dynamic and busy and few have the time to read lengthy emails daily. To accommodate your busy schedules, dear readers, and without jeopardizing the quality of our message, we will only send out three weekly issues of the Chizuk email, one of them being the Parsha in Recovery.

For a daily boost in chizuk and encouragement, please subscribe to the Daily Boost by following the information below.

Please don't forget that the best way for daily chizuk is a day-to-day connection to other struggling people. Additionally, if you feel that your struggles have crossed over into porn/sex addiction territory, consider joining a 12-step Recovery fellowship, which will provide you with additional support. To learn more about various options for the 12-step fellowships, see the article at the bottom of this email. Please also note the announcement of the weekly 12-Step phone conference slated to begin on Aug. 5.

With warmest regards for continued recovery,

Mottel.

Hi Mottel,

I would like to express my thanks for all the past chizuk emails.

I read it daily on my commute to work. As techie as I am, I still prefer the written word over audio-visual presentations. I am also subscribed to the Boost emails, but do not find them engaging. Normally I just skim through the text, and skip the video totally. On the other hand, the chizuk emails are great, especially when you include "A daily dose of Dov".

I understand that there is limited resources, and you need to offer content which is more appreciated by most other subscribers.

I would like to ask for a favor, on the days which there wouldn't be a new chizuk email, Perhaps you can have a random re-run from the archives?

Thank you!

I agree with lion king. I really enjoy chizuk emails. The boost just doesn't do it for me. Give us some oldies. Thank you
