There was no Daily Dose of Dov in yesterday's chizzuk e-mail!

If the dumpster contains both milchig and fleishig garbage you could be cooking them together which is an issur min hatorah, chas vesholom, but it is a dovor sheino mischaven and not a psik reisho.

lemaiseh, toisfos in pesachim says that if there's an **animal similar to a cat** in the area you can be *batuach* that he ate up any meat.

now toisfos says that this is only with regard to **fresh tender meat**, but then again that's only for something **similar** to a cat. However, i think that the cats in yerushalayim devour any morsel of meat they can find even more than *kedey chapisas kelev* [cuz[i] *lemaiseh* [i]they're cats, not dogs] so i'm not saying anyone could be *soimech* on me *lemaiseh* [i only said *lemaiseh* in the beginning, cuz *lemaiseh* thats the way i speak] by a *hafganah*, just writing this *lehagdil toirah*.

besides there may be *shailos* with going to a *hafganah*, so lets not go too deep, but first, how is

it not a *psik raisha*? if it's there, it's there. do u want to start with *ruba* and *chazaka*?

I miss him.heard he will be by a hafganah tomorrow some time....send regards please
