I hate to disagree with the heilige B on such an important issue, but

Kutans sheep is a winner. I smile each time I see it!

Personally, I think Battleworn and Tomim have the spookiest picture

Momo's picture is only off because he is ahead of the times. His picture is meant to portray him all ready to carry Mashiach. And if anyone will do it, its our Momo!

I cant use the granny Bardichev, Efshar will ask me again if its a photo!

Rabeinu Guard just let me in on the secret.

Nope it aint him!

That comes to show that we better work on our eyes a lot more for we Clean Holt eyes should pick up on that.

I picked my own picture, so it's not Guard's fault. Guard picked a Yid playing baseball since I talked about being in the game.

I picked a donkey since I carry the burden of the world on my shoulders, yet remaining stable so far.

I also forget how badly I feel after I fall, and yet continue to fall, so I have the memory of a donkey.

Sometimes I feel I'm very attached to the chomer (which comes from chamor).

Anyway, the donkey photo was a bit ridiculous, so now I changed my photo to a star. Sometimes I'm a rising star, and sometimes I'm a falling star. but, everyone on this forum are individual stars.

Regards.
