hey emu,

remember when you were the lawyer in that case of the blood libel?

(Disclaimer: this thread is in no way intended to make litzanos of any part of yiddishkeit, it is meant solely for the purpose of being mesameach yidden and giving anyone who needs a kosher outlet a place to write. thank you for your understanding and cooperation)

Young men may become tired and weary, youths may fall and stumble, but those who trust in Hashem will renew their strength and **sprout wings like an eagle.**

They shall run without becoming weary and march without tiring.

Doesn't anybody have a problem with practical kabala and Mass in the same sentence?

Let  $e = \text{emunah}$

Let  $m = \text{mr.}$

Let  $c = \text{the speed of light}$

Let gibbor = raising to a Higer Power

Let Pidaini = Albert Einstein

Then after splashing some kabbalah water woodford on the equation, and saying the magical incantation, ("I am an addict"?) we get

The Official GYE Theory of Relativity

sorry guys, it's all there in the pasuk, strength and emunah equals eagles.

so it's only together, which means that if an eagle did sprout into GYE it means that it's because Mr. E and gibor are together and had each other. So you both must have both.

I hope it doesn't mean that I lack emunah  
according to chabad, strength + emunah = penguins
