

Keep on Truckin'

?? ?????

Why is "Truckin" always written chaser?

I would suggest, lifi anyius daati, that the vort is similar to the "machatzis hashekel" vort, i.e. even though we are continually making progress, we are never "there." Progress not perfection.

This mehalech is al pi poshut p'shat, but I am sure others here have deep thoughts on this sugya...

It all depends on which kollel you are adding? Spinka Kollel has what? 300? Kollel Hagadol d'Shmendrickville doesn't have any.
