

Are you Seriuos?!?!

Posted by Pidaini - 02 Aug 2013 16:40

The other day I found out the most bizarre thing!!

When I heard it I almost fell out of my nest, and after that he told me something that I'm not sure I could really accept, I mean.....

Oh, ok, I'll tell you,

Could you beleive it?!?!

But that wasn't it, the next thing blew my whole nest away, and when I tried flying after it, I found that I was too shocked, and was rooted to the spot.

Zemmy isn't a BELZER!!!

Zemmy isn't really a giraffe!!!!!!

maybe I'm really a monkey?!

New Members, BEWARE

I'm starting to have doubts now about what I really am
Avatars can be dangerous!!!!!!

Yes, there has been sighting of moish u.k. rolling himself inches away from the goalee, into the goal!!

NitzotzEloki was caught swinging from the electric wires throughout the city.

And...and...Headlines are screaming that they have finally found the bearded eagle!!!

Can the problem be that they are .png pics? What if you re-save them as .jpg and then repost?

According to the popup that shows when you click "add file", .png is an allowed format.

I wonder if the total path length of the files is too long (the system hides part of the path as "fakepath" in the post for privacy). Try renaming the files with shorter names and moving them up closer to the root of C:
