

Karma

Posted by Chachaman - 14 Aug 2013 07:44

I left for my summer break with 6 "Karma", and I came back and my karma is down to 5.

Theories?

(One karma point goes to the person with the best theory.)

The way Hashem created the world, anything gashmiyusdik deteriorates over time. I once heard a shmooze on this topic, but I forgot who it was from. I am pretty sure it was on a tape in someone else's car.

Just to clarify further, just as your kar goes down in value over time, so too with your karma.

It's 1-**877**-KARMA4KIDS.

You clearly don't listen to the radio enough. That's probably a good thing.

You can also get **FREE** towing, a **FREE** vacation, a **FREE** tax deduction, and, for a limited time, we will even throw in...

But not your real ma. I guess she's not gashmiyusdik.

Karma is osiyos Marak = soup

chances are it is chicken soup (on yiddishe forum is there any other soup?)

and that leads us back to Shabbos,

So this whole thing is probably just another one of zemmy's pranks.

Karma backwards is Am Rak = Empty Nation

R' Tzadok writes that "America" symbolises it's entity, which is.....Am Reika.

The reason that it is backwards, is because we on GYE are filling the emptiness!

and it is probably by eating zemmy's "filling" chicken soup.
