

**Important Variances Regarding Parve Cholent & Beer**

---

If you struggle with eating parve cholent, either because it's 'parve-cholent-tuesday' in yeshiva, because the kollel budget mandates it or the local cattle have migrated to gentler climes, fear not.

Our resident mekubal and cholent chef, **Mr. Isidore Wide E. Nuff, CCC-FB** (*certified cholent chef - fatso bela"z*) has determined based on extensive research on [hebrewbooks.org](http://hebrewbooks.org) and copious hours of studying at the feet of Fetter Geegle that the same rectifications and supernal unifications achieved by fleishige cholent can be reached through parve cholent, with a small caveat. You must put in a six-pack of quality beer. What constitutes quality beer and what is inferior and should be avoided is beyond the scope of this dissertation and will not be addressed in the interests of national security.

well-asked

the number six is paramount. 24 is good too, it's kneged the matnos kehuna. but six is even more. so here is a way for the baal nefesh to be yotze lechol hadayos. empty all 24 into 6 bottles and then pour into the cholent. you may want to add knaidlach too.

The more threads like this one discussin' pertinent IMPORTANT matters, one that has ramifications that are beyond the scope of this publication, but one that is omeid b'rumo shel oilam - the further down the page will be that thread, where it can be said "harbeh d'yo nishpach al zeh l'vatalah."

So party on!

Chollent w/o meat is like.....

etc.
