

Important Variances Regarding Parve Cholent & Beer

Posted by ZemirosShabbos - 20 Nov 2014 22:19

If you struggle with eating parve cholent, either because it's 'parve-cholent-tuesday' in yeshiva, because the kollel budget mandates it or the local cattle have migrated to gentler climes, fear not.

Our resident mekubal and cholent chef, **Mr. Isidore Wide E. Nuff, CCC-FB** (*certified cholent chef - fatso bela"z*) has determined based on extensive research on hebrewbooks.org and copious hours of studying at the feet of Fetter Geegle that the same rectifications and supernal unifications achieved by fleishige cholent can be reached through parve cholent, with a small caveat. You must put in a six-pack of quality beer. What constitutes quality beer and what is inferior and should be avoided is beyond the scope of this dissertation and will not be addressed in the interests of national security.

Can we have the full Pareve recipe in time for tonight's cholent? Or is it only for those well versed in Shas and Poskim?

a short quiz is in order

1 - How many times is Rami Bar Chama mentioned in Shas?

2 - What daf has the longest tosfos on average throughout shas?

3 - Who is Pursi Shanmag?

if you can answer those you will be eligible to get the recipe*

**as long as you are over 40, went to the mikva in the past year, wear tefilin of Shimusha Rabba and regularly practice tikun chatzos*

I beleive ther is a taus sofer, and it should read:

the same rectifications and supernal unifications achieved by fleishige cholent can be reached through parve cholent, with a small caveat. You must ~~put in~~ **drink** a six-pack of quality beer **before ingesting the cholent**.
