

FREE HARDCORE CORNOGRAPHY

Posted by peloni almoni - 12 Aug 2015 03:54

cornography *n*, [kor-nog-ruh-fee] - an intense display of corny or clever jokes, commonly used in various kinds of recovery

side effects of viewing cornographic images will include laughter, rolling of the eyes, the occasional snort, and general irritation. extreme cases were known to include diarrhea, coughing, vomiting, and well...

[spoiler]/[spoiler]

if you experience any symptoms for more than 4 hours, you're welcome.

HISTORY OF CORNOGRAPHY -

i am a firm believer in this. and i am sick and tired of posting on other people's forsaken "just having fun" threads that cordnoy keeps reviving from the dead. i am getting increasingly depressed by posting on the depressed person's chill spot, and i feel like i already ate and digested all the "chulint" i could handle. hell, i even made an ??? ???

sooooo, i am starting my own blog, that will, at least for some time, be updated and active, but hopefully be interactive. i encourage everyone to PLEASE PLEASE PLEASE help, as humor therapy should be a group effort. you all have talent - I'VE SEEN IT.

~~cordnoy~~cordnoy is so good at it, that if this were a corny army, i would appoint him ...

Warning: Spoiler!

rabbosai, the indians called corn "maize". they must have thought corny jokes were just "amazing". but my motto for this blog is - **NO JOKE IS TOO STUPID**. you have my word that i will at least try to laugh at every attempt at humor that anyone makes here. feel good that you may be giving me or someone else chizuk - or at least you will be annoying "the urge" right out of them.

so friends. romans, countrymen, give me your EARS of corn...

BRING OUT THE POPCORN, LET THE SHOW BEGIN...

[zemmy, if you're reading this, let it never be said that i do not take my ????? seriously. ?' ??
?????? ?????? ?????? ?????? ???]

"Welcome to our automated psychiatric help line. If you are suffering from OCD, please press 1 repeatedly. If you are suffering from multiple personalities, please press 2, 3, 4, & 5. If you are suffering from excessive co-dependency, please have somebody else press six for you. If you are suffering from a ADD or ADHD please pay no attention to this message. If you are suffering from paranoia, there is no reason for you to press any number as we know who you are, where you are, and what exactly it is that you are calling about. If you are schizophrenic, listen carefully and a little voice will tell you which number to press. If you are suffering from manic depression, it doesn't matter which number you press, no one will answer. If you are suffering from excessive gullibility, please hold and somebody will be with you shortly."

if you are calling because you feel you are shrinking in size, you will just have to be a little patient. if you think you have become a set of curtains, please pull yourself together, and continue to hold. if you think you have become a needle ... well then i see your point.

damn lust addicts.

no, no, no, where ARE my manners!?! we have to be ?? ??? ????? that they probably mean a mixed keilim mikvah, one that both men and women can use.

i mean after all, they have beards and hats! and they look so PIOUS with their curly PIOUS.

BESIDES, people-mikva's have become the BUTT of too many bad jokes. it's becoming rather ASSENINE. time to leave these jokes BEHIND.

John Major, a British prime minister in a thoughtless moment actually said the following: When your back's against a wall you've got to turn around and fight.

100 feet before the entrance to the emergency room of a large Hospital in New York - there stands a large cross for our non Jewish friends. They also hung some cloths on the cross to look like a man hanging on the cross representing their ~~g-d~~.

Why did they put this cross outside the emergency room?

I think they were giving subtle message that "Our hospital is only 50 years old, so unfortunately this guy didn't make it to the emergency room in time - but we'll take good care of you..."
