

The Legend of Cord

Posted by ZemirosShabbos - 17 Sep 2015 14:22

In the annals of GYE history, never has so much been posted in so short a time, with such a high post-IQ as in the record of our dear chaver Avraham/Cordnoy.

As such, as acting chairman of the Ad Hoc Committee to Mark the Sixth Millennial of Cordism, I move to proclaim today as National Accordion Day.

All in favor please raise your shot glasses

The bouncer looked like he was stoned, I didn't want to take anything from him.

Nah, I went back after you left and I have a splitting headache today. How many lies in that statement?

A Cor'ny one

A drunk was in front of a judge. The judge says, "You've been brought here for drinking."

The drunk says "Okay, let's get started."

Rumor has it that since hitting the 8th millennia, our captain has traded his ship for a submarine

The famous threads - [Tryin'](#) | [Mikvah Night](#) have slipped off the radar...

The daily calls are underwater...

I'm hereby putting out the call for any experienced divers to retrieve the black boxes and give Cordnoy some serious moderation

Last night I was so drunk, that I decided to take the bus home. Sounds like a good idea, except that I've never driven a bus before.

Gibbor won't get tired.

So you better keep posting cordnoy. He's only 3500 posts behind you. (the guy you really have to watch out for is Markz, his truck might be passing you in the ocean soon).

By the way cordnoy, I responded to a question of yours here guardyoureyes.com/forum/4-On-the-Way-to-90-Days/241316-90-is-a-big-number-but-with-time-will-get-smaller

Cord' and I just shared numberplates (we didn't crash!). For the next few months at least, his numbers are gonna stay ahead of mine. And I'm good with that
