

Testin' the New Editor

We thank Guard and his team for updatin' the site and the editor.

There are many new features to make it easier.

There are, however, still kinks as well.

In this post, there will be a list of questions, suggestions and error reportin'.

As a thread goes on, the post gets lost.

Accordin'ly, I will be doin' as follows.

If you have an issue, question, answer, comment, or whatever, email it to me:

[thenewme613@hotmail.com](mailto:thenewme613@hotmail.com).

I will then add it to this post.

All other posts on this thread (other than Guard's) will be deleted, for it will not be orderly, and then it will not get fixed.

Thank you

1. the "quote" feature needs to be fixed.
2. the "source" button needs to be explained.
3. the "quote" button on mobile version needs an overhaul.
4. the "spoiler" button has been removed. Guard's note: We used to have a button for "Spoilers". It inserted the code

**Warning: Spoiler!**

. We can still do this in the SOURCE, but it would be nice if we could have a "Spoiler" button in the editor as well please.

5. the "insert image" has disappeared. Guard's update: When I insert an image, sometimes it works (like this IMAGE: <http://tiptipa.org.il/template/img/benefits-2.png>) and sometimes it doesn't (like this IMAGE: <http://f.a7.org/Resize/pictures/180x120/608829.jpg?&autocrop=1>)

6. the "strike thru" button is not workin'.

7. Can we make everything work in "quick reply" and we won't need "full reply" anymore? This would include both rows of editing tools as well as "attach file".

8. If we do 1 above, remove the "Quick Reply" button and leave only the "Reply" button, but change the functionality of the Reply button to the functionality of Quick Reply.

9. Tried to attach file - didn't work

10. What would it take to make the e-mails of posts (when a user is subscribed to a thread) to include the formatting? (Right now it comes as code).

11. Inserting a table works in preview, but when posted it disappears (no borders show). Also when pressing EDIT it is gone.

12. When I use the "Quote" button in the editor to manually create a quote, it puts the word "Wrote:" on top of the quote box. Can we remove that?

13. The yiddish site is showing me BOTH editors. The old one AND the new one!

14. People who are subscribed to a thread on the Yiddish forum get an e-mail with the message filled with code. For example:  
`color=#FF0000?? ??? ????? ????? ?" ???? 2 ?????? ??? (120 ?????) ?????[/color]`

15. The editor tools in mobile take up 5 lines. Please make sure the tools fit into just 3 lines.

This post will be constantly updated.

Thank you

I am aware of the quoting issue, but I can't reproduce the bug with switching from source back to regular causing the content to disappear.

Also, Cordnoy, we made quoting easier. One no longer needs to click the red arrow, they can just start typing below the quote. Don't you find it easier now?

Yes. Thank you. I think.

Quoting on mobile - the date doesn't show when submitted (because it's a link?)

Things got worse.

Now the punctuation after Hebrew comes out wrong even when i copy and paste it from Word.

???

???

?'

Also, i just had Markz's thing where i switched from source to regular and.. abracadabra.. content disappears.

Testing the Hebrew / English integration:

In this week's parsha it says

??? ??? ?????! ??? ?' ??? ?????. ?' ???

Back to english

?' ??? ???? ???? ?'

Hi Shea

Hope you're havin' fun

Hey if you have a sec I had a small request for "Chat" on Mobile

1) When the device is turned sideways (from portrait to landscape) the chat jumps to the 20th last message, and doesn't remain on the last message

2) A mobile user who is online on gye cannot see the chat, and should not show on the chat page that he is on the chat, unless he's actually on the specific Chat page

Have a great day, and if you had other plans, go find the JHF section

why did the chicken cross the road?

checking if the date is shown when quoting from mobile.

testing if date shows on mobile take 2
