

Bugs & Issues - Please report here

Posted by Markz - 28 Sep 2016 02:57

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important:** Please specify the 'bug' with as much detail as possible. e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try,~~ and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle..."

Warning: Spoiler!

"

2. **Update:** Reply here after you see the issue is resolved on your end. So I can report that the bug is successfully [vanquished](#)

On MOBILE Postz are locking for me before submit on any exotic post I write today, e.g. with simple image

I already lost 2 earthshattering postz!

Anyone else experience this today, or is is just me?

Generally, I need to hit "submit" seven or eight times before anythin' happens, and even then, positive movement is extremely slow.

SortSort of reminds me of my bedroom.

MMe too with the posting issue. On mobile browser it is totally unusable. Takes about 3 seconds delay per keystroke. The app is better, but need to press each button (Reply, quote, submit, etc...) multiple times.

As long as your bedroom is ok, you're ahead of the game.

I'm not ahead of any game. Just meant to say that my life doesn't come with a submit button.

My wife doesn't come with a submit button either; that's the problem!

In order to report this submit problem to the developer (no cords - yours you should take up with your lor), I need you gyes to spell out what Device and version you use and what the bugs are

And if you can't submit it here for some odd reason, you can use good old email
markzgye@gmail.com

And I'll have to also complain about Lionkings sore throat - Me no hear no roar!

Quote from someone I respect on a group outside of GYE: "I think I like this lionkin'(g) guy."

Personally, I'm sick of spellin out what device and model I'm usin'. It's the same duckin' one for the last several years. And no, there was no issue with submittin' on any of the porn sites. As a matter of fact, the rest of this post was deleted by the duckin' moderator.
