

Bugs & Issues - Please report here

Posted by Markz - 28 Sep 2016 02:57

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important:** Please specify the 'bug' with as much detail as possible. e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try,~~ and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle..."

Warning: Spoiler!

"

2. **Update:** Reply here after you see the issue is resolved on your end. So I can report that the bug is successfully [vanquished](#)

TEST

This is an intelligence test for web developers of theguard

[the.guard wrote on 01 Oct 2009 21:49:](#)

SHE WAS SO BLONDE...

... she tripped over a cordless phone.

... she spent 20 minutes looking at the orange juice box

because it said "concentrate"

... she put lipstick on her forehead because she wanted to
make up her mind.

... she got stabbed in a shoot-out.

... she told me to meet her at the corner of "WALK" and
"DON'T WALK".

... she tried to put M&M's in alphabetical order.

... she sent me a fax with a stamp on it

... she tried to drown a fish.

... she thought a quarterback was a refund.

... she got locked in a grocery store and starved to death.

... if you gave her a penny for intelligence, you'd get
change back.

... they had to burn the school down to get her out of 3d
grade.

... under "education" on her job application, she put
"Hooked On Phonics".

PLEASE TRY WRITE HERE

. Hhhh

[the.guard wrote on 01 Oct 2009 21:49:](#)

... she took a ruler to bed to see how long she slept.

... at the bottom of the application where it says "sign
here" she put "Sagittarius".

... she asked for a price check at the Dollar Store.

... it takes her two hours to watch 60 Minutes.

... if she spoke her mind, she'd probably be speechless.

... she thought she needed a token to get on Soul Train

... she sold the car for gas money.

... when she saw the "NC-17" (under 17 not admitted), she
went home and got 16 friends.

... when she heard that 90% of all crimes occur around the

home, she moved.

... when she took you to the airport and saw a sign that
said "Airport Left" she turned around and went home.

Guys - On mobile devices the box is changed and is now as long as the post so that it doesn't
jump away from a section you are editing in a long post

it does move the editing tools higher than previously...

Anyone have a problem with this change please note it here asap

It seems that due to recent events on the forum every post will be reviewed before it is posted

I understand the need for this but it makes the forum less effective and is annoying

Is there no way to block IP addresses?

(might be the flaw trouble was talking about)

Although approv'in' posts have been discussed, gye has not implemented such a system, as you were able to tell from this post of yours.

With all due respect to Our Great Moderator Cordnoy, Unfortunately there isn't enough mods on the forums at all times to monitor posts on a 24 hour basis. We need to be able to self moderate. When someone sees a post which violates the forum rules, they should report to the moderator.

Currently as far as I know, when reporting a post, the post remains visible until a mod decides to act on it. Perhaps we can implement that the post get immediately removed and only restored when a mod approves it?

LK I like the idea

Any user that abuses this will have to bear the consequences

However for now it's clearly one stupid guy

Also next thing we know he's gonna come on as multiple users and delete everyone else's posts with your great idea if it gets implemented

My personal opinion is that this is not a big deal. If someone calls another guy a faggot, or a f*ckin' imbecile, or a zimah, he should do what Shlomo did and grow from it, and use it as a tool for growth. If the word moron or retard is on the site for three hours, who gives a sh*t? Why would you give one damn what some pajama wearin' basement ignoramus blogger calls you?

Where did the "bad word deleted" go?

This place changes faster than controlfreak changes names!

Forum can implement a hold on creating multiple users from the same IP address.

FYI, Facebook moderates each message. Mods get about .01 seconds to approve or delete.

....

Cord' I know you have asked for the 5 star feature - I'm not sure it's necessary -and how will people find it?

What I do believe should be requested from the Devs is that each Forum category should have threads sorted by amount of "views" per thread, not by "latest". For example when new user goes to "[Break free](#)" section, "Tryin'" is supposed to be one of the first

[edit: after I submitted this post the thread got first spot due to the "latest" sort default, otherwise it would be lost somewhere in later pages on the "Break Free" section]

If I see some thankyou's here it means there's an interest and I'll ask the dev ;-)

Markz,

Perhaps leave the sort option for the user to choose. The forum platform has that option it just needs to be enabled by web dev to allow reg. users to choose their sort preferences. BTW, There is plugins that allow the 5 star system for this forum. I just don't know if they are compatible, since I do not know which version the forum is running on, and also the page layout would need to be updated to reflect the new star system. PM me if you need more info. The email you have for me isn't active anymore. My new email is growinghigher613@gmail.com
