

Bugs & Issues - Please report here

Posted by Markz - 28 Sep 2016 02:57

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important:** Please specify the 'bug' with as much detail as possible. e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try,~~ and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle..."

Warning: Spoiler!

"

2. **Update:** Reply here after you see the issue is resolved on your end. So I can report that the bug is successfully [vanquished](#)

I set up a Google sheet to track the status.

Edit: I removed the table since it was messing up the formatting. My sheet is still tracking in case anyone needs the info.

Did anyone else notice. How come the ThankYou/Reply buttons show up differently at end of Lionking's post?

guardyoureyes.com/forum/23/367129

Maybe the 150,000 Russian troops are trying very hard to hack and invade gye, trying to blow up our nuclear station? Seems they are succeeding as the lights keep shutting off on gye.

It seems like it's just that one post.

Also at the end of this thread it's weird; by me I have the page numbers vertical and not horizontal like by all other threads. (Even on the other pages the page numbers are regular, just on page 16, it's weird looking).

It has something to do with the tables. I removed it and now the formatting is fixed.
