

Bugs & Issues - Please report here

Posted by Markz - 28 Sep 2016 02:57

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important:** Please specify the 'bug' with as much detail as possible. e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try~~, and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle..."

Warning: Spoiler!

"

2. **Update:** Reply here after you see the issue is resolved on your end. So I can report that the bug is successfully [vanquished](#)

Yeah, so the site keeps on crashing on me...

Sorry to hear that

1. Have you cleared your cache recently (restarting computer also helps)
2. In what browser / search engine are you accessing gye?

Btw, I realized the problem that I had with GYE was from a Chrome extension. I deleted it and now everything is running fine.

The more issues our computer gives us, the greater the opportunity for growth there is.

Onel, where I generally fail at.

So I see they took the suggestion that the karma and streak should show in the post header on mobile, but now it's the same way on the PC too and its much harder to read. especially the username, the light blue on gray is almost invisible.

I don't understand why the change was made with the streak and karma. I agree with Gev, it's very hard to see and the letters are jumbled together.

Dark blue on gray would be hard to read

On my PC light blue on gray is good

Guys (Gev, cord', Shlomo) can you please take snip and upload here so I can ask the tech guys to make any changes

Thanks!!
