_____

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important**: Please specify the 'bug' with as much detail as possible.   e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try~~, and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle...
**Warning: Spoiler!**

      "
2. **Update**: Reply here after you see the issue is resolved on your end.   So I can report that the bug is successfully [vanquished](#)

Why don't we just revert it back to what it used to be? What was wrong with that?

There are no spaces between the profile name and "Current streak" and between "1 day" and
karma. If we have to keep this, then a white font would be most visible.

Hard refresh they fixed that already.

The red font the moderators have is too dark still

That's something I was gonna ask too

To change mods e.g. Cordnoy to lighter color.

It's his ego++ showing - don't worry we'll get it under control

Much better now. But it would be nice if on the PC it also had it on the side the way it used to be.
