

Bugs & Issues - Please report here

Posted by Markz - 28 Sep 2016 02:57

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important:** Please specify the 'bug' with as much detail as possible. e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try,~~ and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle..."

Warning: Spoiler!

"

2. **Update:** Reply here after you see the issue is resolved on your end. So I can report that the bug is successfully [vanquished](#)

I have trouble when I post with my I-pod, blackberry and my regular PC. When I hit "cancel," it submits. When I backspace, it removes the entire post. When I click the "add file" box, it brings me to the Manchester concert, where there was a dangerous woman. Scary stuff!

TEST

This is an intelligence test for web developers of theguard

[the.guard wrote on 01 Oct 2009 21:49:](#)

SHE WAS SO BLONDE...

... she tripped over a cordless phone.

... she spent 20 minutes looking at the orange juice box

because it said "concentrate"

... she put lipstick on her forehead because she wanted to
make up her mind.

... she got stabbed in a shoot-out.

... she told me to meet her at the corner of "WALK" and
"DON'T WALK".

... she tried to put M&M's in alphabetical order.

... she sent me a fax with a stamp on it

... she tried to drown a fish.

... she thought a quarterback was a refund.

... she got locked in a grocery store and starved to death.

... if you gave her a penny for intelligence, you'd get
change back.

... they had to burn the school down to get her out of 3d
grade.

... under "education" on her job application, she put
"Hooked On Phonics".

PLEASE TRY WRITE HERE

[the.guard wrote on 01 Oct 2009 21:49:](#)

... she took a ruler to bed to see how long she slept.

... at the bottom of the application where it says "sign
here" she put "Sagittarius".

... she asked for a price check at the Dollar Store.

... it takes her two hours to watch 60 Minutes.

... if she spoke her mind, she'd probably be speechless.

... she thought she needed a token to get on Soul Train

... she sold the car for gas money.

... when she saw the "NC-17" (under 17 not admitted), she
went home and got 16 friends.

... when she heard that 90% of all crimes occur around the
home, she moved.

... when she took you to the airport and saw a sign that
said "Airport Left" she turned around and went home.

On PC the website is taking very long to load. Other websites are fine, but not this one.

So, I've been avoiding this site....for a variety of reasons, some good and some not so good, but one of the reasons was because it's so freaking slow, and that would lead me to curse.

But my time spent here was not for nought. People constantly say that everything bad is really good (and I guess that all the time twiddling thumbs waiting for next page to load was better than clicking on all those fast moving sites).

But the other day I really saw the light and realized why it's so good that it takes so long. I was getting depressed that every time I took a peek at the site, there were tens and eventually hundreds of "new replies," and I wasn't going to click on each one (for perhaps I would see some chizuk by mistake). But then it hit me! I clicked on new replies and all the threads showed up. I clicked view on the first thread, but before the thread opened (which is longer than a commercial break during my favorite show on cable) I clicked (view on) the next thread and then the next thread and within several minutes I clicked them all. Gye recognized it as if I viewed every single thread and next thing I knew, I had zero new replies.

And here I thought that life sucked.

Umm... To me it seems like you're making a mockery of a very serious topic. If you think this is a joke, perhaps you should open a separate thread explaining why you feel that way. But let this thread remain for anybody who's serious about this. Stop making light of this morbidly serious topic, please!

Yo, bb, you gotta take a chill pill. Stop trying to make trouble for Trouble or you'll find yourself in... In hot water. This whole thread IS a joke, if you're taking this seriously, ya gotta recalibrate your brain. Seriously. Just relax, breathe, get back to your monster truck/boat/motorcycle/skateboard/crocs whatever floats your vehicle...

Take a deep breath... It's all gonna be aight...

Interesting bug, you can quote a post from the future!

(must be something with time zones since the posts were made at 11PM)

Interesting bug... you can quote a post from the future!

It must have something to do with the way the system handles time zones since the posts were made just before midnight.

BTW I did this with a screenshot, if I would quote it then both dates would show as the 21st.

It's for those that have a ODAAT program

Gye has a special 23 hour day time zone

Bug in Public Chat: You can delete your own messages, but lately instead of disappearing it shows something like "CC^CONTROL_deletemessage_52889:"

Bug in Public Chat: You can delete your own messages, but lately instead of disappearing it shows something like "CC^CONTROL_deletemessage_52889:"

IMHO chats should not be deletable and I'll tell you why

1. Many times I go to the chat and see countless replies by 1 user and cannot understand the conversation - why did parts have to be deleted by a different user if they were appropriate?
2. Compare to other chat groups - for example - can you delete your group watsapp messages

(so the group can't see what you posted)? Not that I know of

3. Compare to the forum where you can't delete most of your posts

4. On mobile one can't delete his own chats, so that functionally is restricted from those users and not universal and therefore should be removed entirely

Let me know what you guys think
