

Bugs & Issues - Please report here

Posted by Markz - 28 Sep 2016 02:57

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important:** Please specify the 'bug' with as much detail as possible. e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try,~~ and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle..."

Warning: Spoiler!

"

2. **Update:** Reply here after you see the issue is resolved on your end. So I can report that the bug is successfully [vanquished](#)

I find it off, around 12 PM and 5 PM EST.

I hope it has to do with the louching of GYE 2.0.

Can we keep the old forum look. New one is not mobile friendly and doesn't have the option to view recent posts or topics.

thanks

Sorry I found the recent posts option. It is in Menu, community. Hard to navigate especially on mobile. (Using GYE app)

thanks

I think the 2.0 is nice!

Here's suggestions for Mobile which is where I utilize gye.

1. Breadcrumb navigation on top should show, plus on 1.0 it used to show "My old posts" "Create new post" which was helpful.
2. Font color of text in posts should be black not light gray.
3. Header of posts is gray, hence the blue color font such as User names is not great. It should be changed to white or light blue.
4. PM button is a nice feature to add on mobile.

THANKS FOR ALL YOU GUYS DO!!
